SEALTECH INSULATION

Production board

What the office wall shows, who acts on it, and how to keep it running

1
Run the 7:00 huddle
The wall fills itself; read it top to bottom

TODAY

CREW LEAD

2
Clear what can't be invoiced
A finished job lands in Requires invoicing

CANNOT INVOICE

OFFICE

3
Review a finished job
Overnight photo check, then 1st and 2nd pass

REVIEW 🔒

OFFICE

4
Acknowledge a Problem
A crew answers Problem in Jobber

TODAY · ACK

CREW LEAD

5
Focus, responder, flags
The office sets the day and logs issues

REVIEW 🔒 · TOOLS

OWNER

6
Monday scorecard
Seven numbers by week, office only

SCORECARD 🔒

OWNER

7
Keep it running and grow it
Stale data, updates, what comes next

OFFICE PC · GITHUB

OWNER

Each pathway ends with a handoff: the role on the tile takes it from there.

Wall: **office PC › Chrome kiosk › localhost:8787** · Trial: **npm run demo** on the laptop · Code: **GitHub › Jstimach5/SealTech-Dashboard**

What we built

ONE SCREEN FOR THE QUESTION: WHERE ARE THE CREWS, AND WHAT CAN'T WE BILL YET?

office PC · every minute

→

The wall
55" panel · laptop · phone

BUILT AND WORKING (ON TESTVILLE PRACTICE DATA)

- ☐ TODAY wall: crew lanes, NEEDS ATTENTION, CANNOT INVOICE count and lines, Jobber's bucket counts
- ☐ STAGES, CANNOT INVOICE list, REVIEW and SCORECARD screens, PIN per person
- ☐ READY / FIX / HOLD verdicts, Problem ACK, focus line, responder, issue flags, owner changes
- ☐ Runs on the office PC as a Windows service; the panel is a Chrome kiosk
- ☐ Checked by 794 rule and service tests and 112 screen tests at wall and laptop size

THE WALL NEVER SHOWS

- ☐ Dollars, street addresses or phone numbers
- ☐ Incidents, or a name beside a quality number
- ☐ Anything typed only into the board: answers live in Jobber, verdicts and flags in the sheets

NOT LIVE YET

- ☐ **Live Jobber jobs**: needs the Jobber developer app (page 16)
- ☐ **Google Sheets**: verdicts and flags save on the office PC until the sheets are connected
- ☐ **ACK and crew recap into Jobber notes**: shown as **queued** until Jobber writes are on
- ☐ **The 15-minute text to the owner**: logged on the office PC until email sending is set up

Rules that keep the wall true

CREW LEAD

ANSWER VISIT RESULT IN JOBBER

Before you leave the job. Not answered: UNANSWERED goes up and the card shows no result.

OFFICE

ACK A PROBLEM WITHIN 15 MIN

Late: red border on the card and one text to the owner.

1ST-PASS REVIEWER

VERDICT BY 16:30 · 2ND PASS BY 17:00

Late: the job ages on the rail another day.

CREW LEAD

FIX BY END OF NEXT BUSINESS DAY

Open: the line turns amber at 3 days, red at 7.

OFFICE

CLOSE THE JOB IN JOBBER ONCE BILLED

Not closed: it stays in the CANNOT INVOICE count.

OWNER

NOTHING LIVES ONLY ON THE BOARD

Answers go in Jobber, verdicts and flags in the sheets. The board only reads.

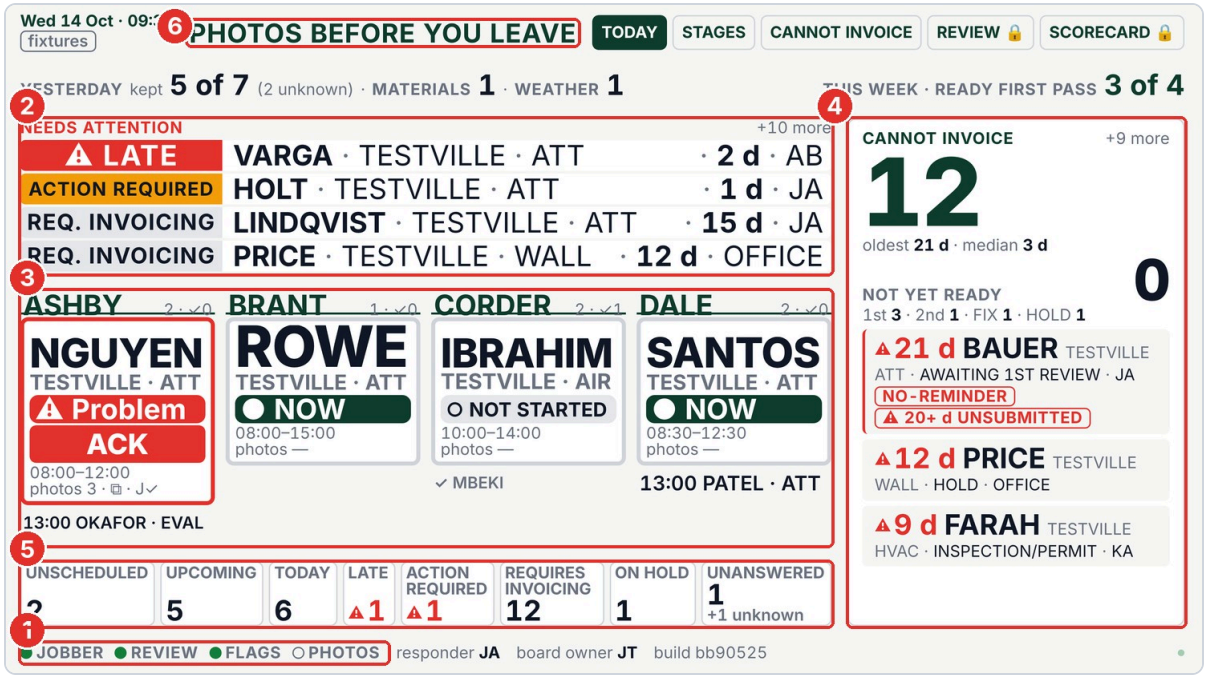

1 RUN THE 7:00 HUDDLE

10 minutes, standing at the wall, crew leads present

TODAY

HANDS OFF TO **CREW LEAD**

0:00 → 10:00 · TOP TO BOTTOM

1. Footer dots green? Amber or red: say so, run on the last numbers.
2. **NEEDS ATTENTION**, oldest first: word, name, days, initials.
3. Each lead reads their **NOW** card and adds what it doesn't say.
4. **CANNOT INVOICE**: the big number, then the top 3 lines.
5. **UNANSWERED** above 0: that lead answers in Jobber before rolling.
6. Say the focus line. One sentence of recognition. Stop at 10 min.

Red = act today · **amber** = watch · **grey** = someone else's clock.

HANDOFF — YOUR PART ENDS HERE

CREW LEAD Each set of initials owns that line by end of day.

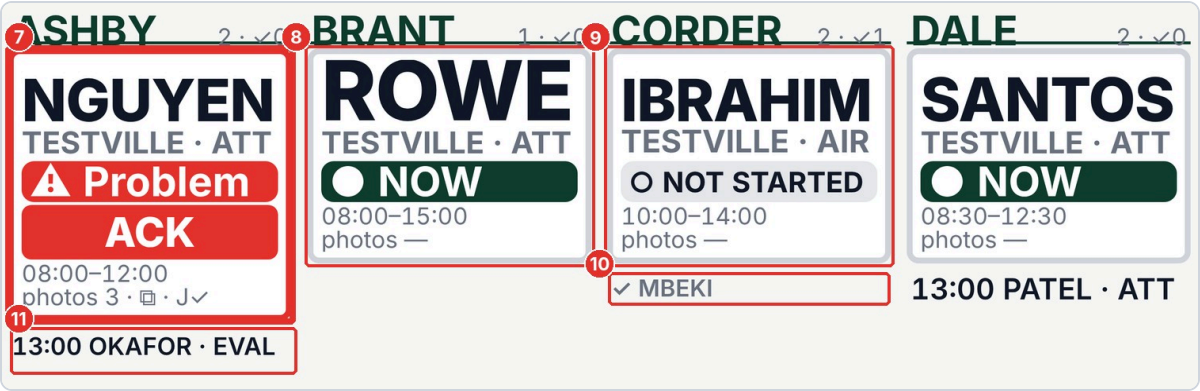

1 READ A CREW LANE

Cards change by themselves as Jobber changes

CONTINUED

TODAY

HANDS OFF TO **CREW LEAD**

WORD	MEANS
⚠ **LATE**	30 min past the scheduled end, still open in Jobber
◌ **NO RESULT**	Marked done in Jobber, Visit result not answered
◔ **AWAITING REVIEW**	Completed, waiting on a verdict
✎ **FIX** · ❙❙ **HOLD**	Latest verdict says fix it, or the owner decides
✓✓ **READY** · ✓✓ **DONE**	Both passes READY · grey once invoiced

ONE LANE PER CREW · UP TO 4

7. Red border + ⚠ **Problem**: the responder taps **ACK** (pathway 4).
8. ● **NOW**: from the start time until 30 min past the end.
9. ○ **NOT STARTED**: start time not reached.
10. Finished visits fold into one line.
11. Next visit. After 15:00 the last line is **TOMORROW**.

A card leaves its lane at midnight. Tap any count box at the bottom to open **STAGES**.

2 CLEAR WHAT CAN'T BE INVOICED

Lines appear and leave by themselves; you only change the owner

CANNOT INVOICE

HANDS OFF TO **OFFICE**

TOP BAR › CANNOT INVOICE

1. Days in the current stage. Amber at 3, red at 7.
2. Reason: one of ten (next page).
3. Owner: initials, or **CREW** / **OFFICE** on FIX and HOLD.
4. Stage clocks: done › 1st › 2nd › submitted › accepted.
5. **NO-REMINDER**: finished, Jobber never flagged it. **20+ d**: hard red.
6. Wrong owner? **OWNER**, then your name + PIN.
7. Tap the new owner's initials.
8. **saved** confirms it.

EVERY RED LINE GETS

A DATE

Said out loud at the huddle by its owner. No date: still red tomorrow.

2 THE TEN REASONS

The board picks the first reason that fits, in this order

CONTINUED

CANNOT INVOICE

HANDS OFF TO OFFICE

REASON (FIRST THAT FITS)	MEANS	CLEARS WHEN
PROGRAM-WAIT	Sent to CLEAResult, no answer yet (grey)	Accepted or Returned date typed in the sheet
HOLD	Owner is deciding	Owner decides; Status filled in the sheet
INSPECTION/PERMIT	Waiting on an inspection or permit	Inspection passes
FIX OPEN	Photos or paperwork need a fix	Crew lead fixes; Status = Fixed
RETURN NEEDED	Last visit Return needed or Problem, nothing booked	Book the return visit
BLOWER DOOR FAIL	Under 20 % reduction	Retest, or a reviewer note
FORM/QUANTITIES	Job form unanswered, or quantities missing	Complete the form in Jobber
AWAITING 1ST	No 1st-pass verdict yet	1st-pass READY
AWAITING 2ND	1st pass READY	2nd-pass READY
READY TO INVOICE	Both passes READY	Invoice or submit, then close in Jobber

STAGES: Jobber's columns and packages open against the cap of 15.

Hard red at 20 days since completion with nothing submitted, whatever the reason.

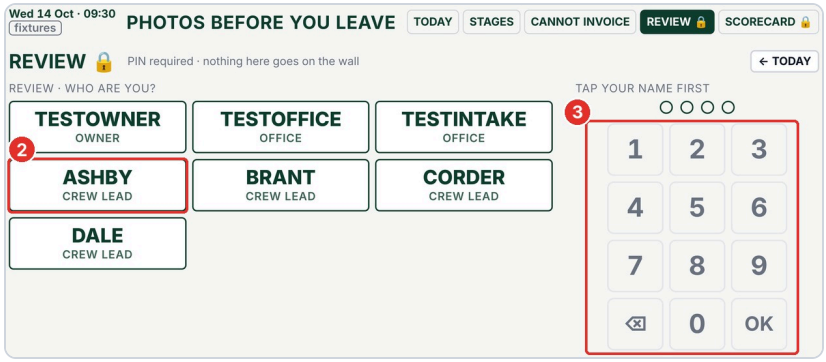

Grey **PROGRAM-WAIT** sits last: it is CLEAResult's clock, not ours.

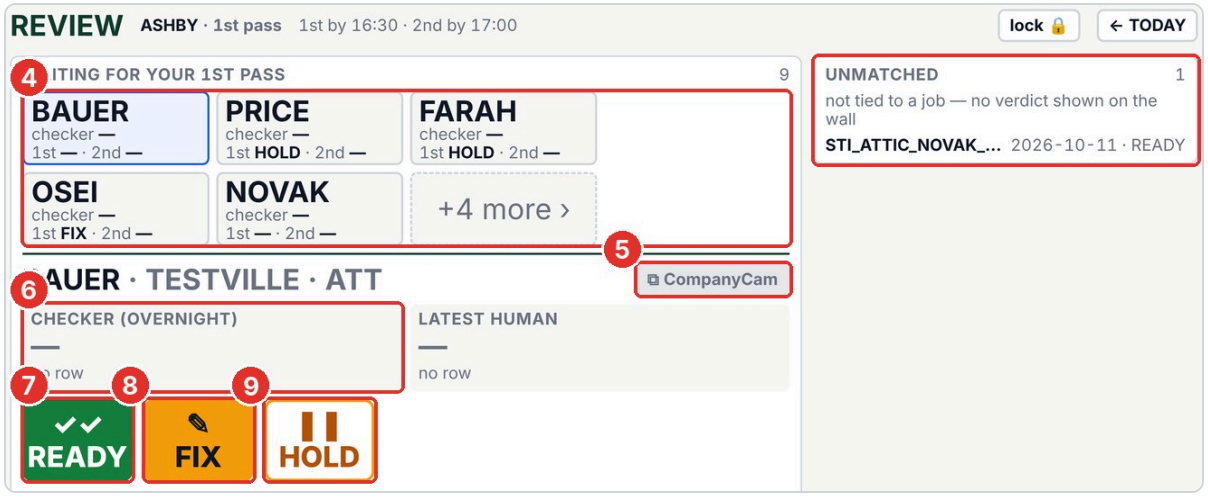

3 REVIEW A FINISHED JOB

Each tap adds one row to the Photo Review Queue with your name and time

REVIEW 🔒 → HANDS OFF TO OFFICE

TOP BAR › REVIEW 🔒

1. Tap **REVIEW**.
2. Tap your name.
3. Enter your 4-digit PIN.
4. Pick a job waiting for your pass.
5. Open **CompanyCam**, check the photos.
6. Read the overnight checker's verdict.
7. **READY**: the package is complete.
8. **FIX**: pick what must be fixed.
9. **HOLD**: type why. The owner decides.

2ND-PASS READY NEEDS

1ST-PASS READY

Before it, the 2nd-pass READY button is greyed out.

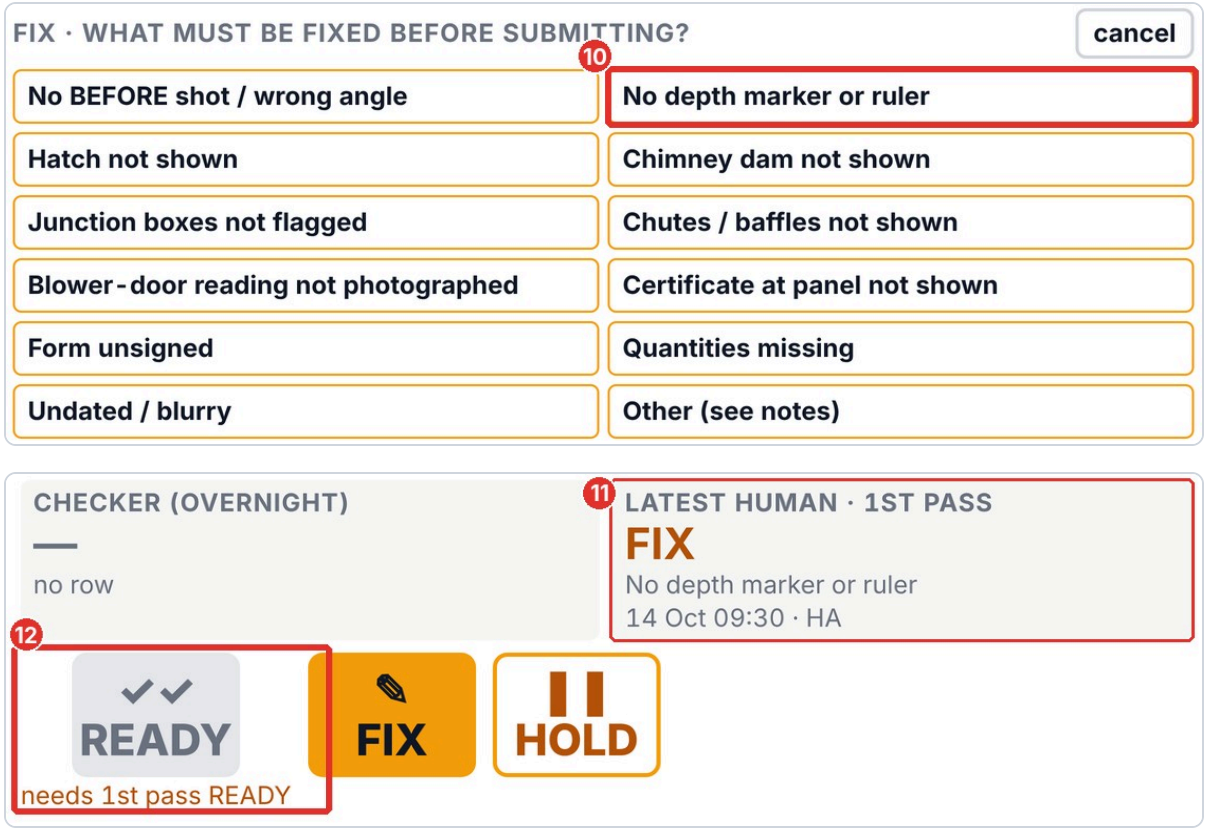

3 FIX, HOLD AND THE 2ND PASS

Same screen; the job leaves your list once your pass is in

CONTINUED

REVIEW 🔒

HANDS OFF TO **OFFICE**

AFTER STEP 8

10. FIX: tap the one thing to fix. It saves at once.
11. Your verdict shows as the latest human verdict.
12. 2nd pass: READY stays grey until the 1st pass says READY.

UNMATCHED box: a sheet row the board can't tie to one job. Type its **Job #** in the sheet.

Leaving REVIEW locks it. 60 s without a touch: back to TODAY.

HANDOFF — YOUR PART ENDS HERE

OFFICE Invoices or submits the package, types the Submitted date, closes the job in Jobber.

4 ACKNOWLEDGE A PROBLEM

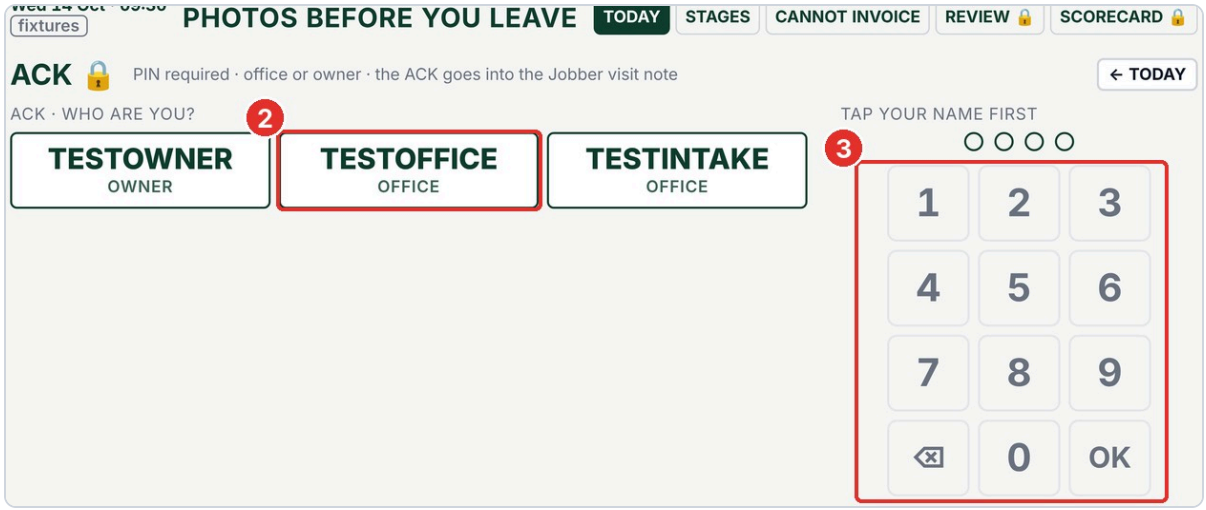

The ACK button shows the moment a crew answers Problem

TODAY · ACK

HANDS OFF TO **CREW LEAD**

TODAY › CREW LANE

1. Tap **ACK** on the Problem card.
2. Tap your name (office or owner).
3. Enter your PIN.
4. Red border clears. Call the crew lead.

A PROBLEM NEEDS AN

ACK IN 15 MIN

Late: red border on the wall and one text to the owner.

The ACK becomes the line **ACK 9:30 JA** in the Jobber visit note. Until Jobber writes are on it waits as **queued** in the footer.

HANDOFF — YOUR PART ENDS HERE

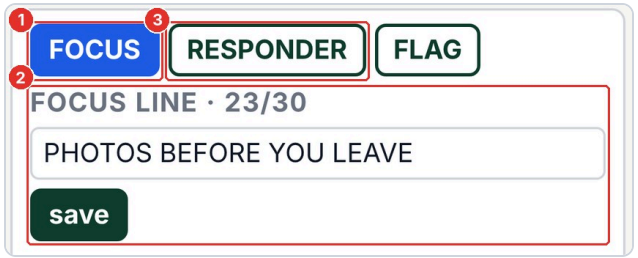

CREW LEAD Talks it through with the responder and books a return if needed.

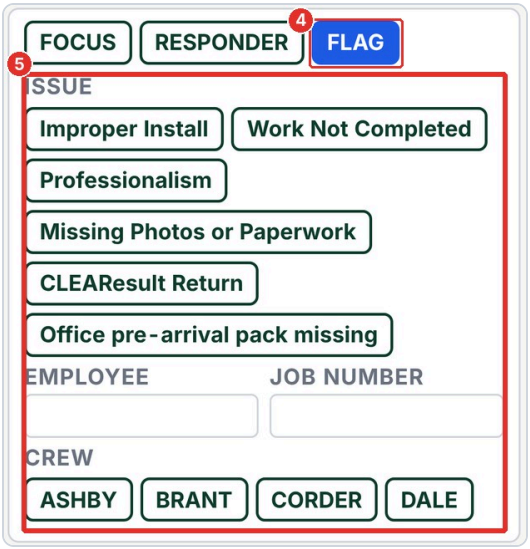

5 FOCUS, RESPONDER AND FLAGS

Office or owner PIN; the tools sit on the REVIEW screen

REVIEW 🔒 · TOOLS

HANDS OFF TO **OWNER**

REVIEW › OFFICE OR OWNER PIN

1. **FOCUS**: today's line for the wall.
2. Up to 30 characters, then **save**.
3. **RESPONDER**: who answers Problems today.
4. **FLAG**: log an issue.
5. Pick the issue, employee, job number, crew, notes, **save**.

Flags are for the KPI **Flags** tab and its incident email; they save on the office PC until the sheets are connected. Never on the TV.

A focus line that looks like money, an address or a phone number is refused.

HANDOFF — YOUR PART ENDS HERE

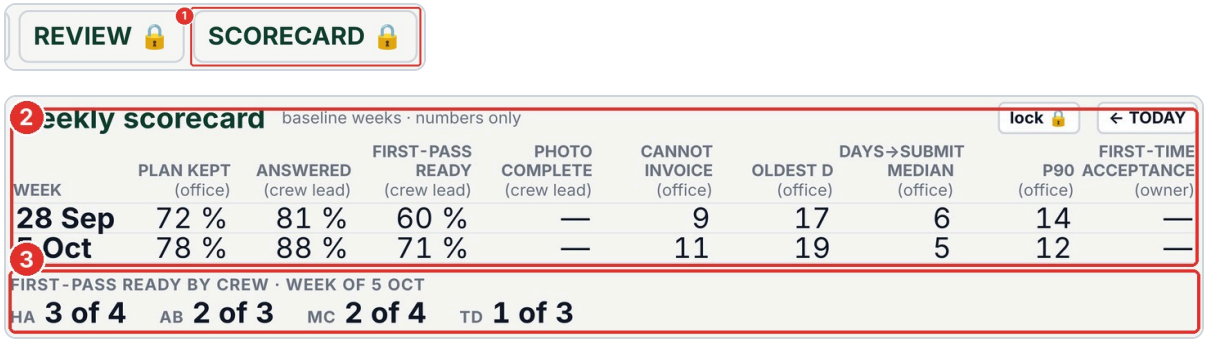

OWNER Gets the incident email and handles it privately.

6 MONDAY SCORECARD

Office only, Monday 7:15–7:45, after the crews roll

SCORECARD 🔒

HANDS OFF TO **OWNER**

TOP BAR › SCORECARD 🔒

1. Tap **SCORECARD**, enter your PIN.
2. Read last week’s row. Grey words name each number’s owner.
3. First-pass READY by crew: only here, never on the wall.
4. Red two weeks running: onto the issues list.

No targets for the first 4 weeks; then targets come from that baseline. Never used for discipline or bonus.

— means that feed doesn’t exist yet.

HANDOFF — YOUR PART ENDS HERE

OWNER Takes the reds into private conversations.

Your day and week

	06:55	07:00	07:10	ALL DAY	16:00	16:30	17:00
OWNER	Footer dots green?	Run the huddle		**Text arrives: Problem 15 min without ACK**			2nd-pass verdicts done
OFFICE			Focus line + responder	ACK each Problem within 15 min	CLOSE lines in Jobber for unanswered visits		
CREW LEAD		Read your lane		Answer Visit result before leaving each job		1st-pass verdicts done (1st-pass reviewer)	
BOARD	Reading Jobber every minute from 06:00			Cards move · LATE · NO RESULT · red borders			Verdict cut-off shows amber

EVERY WEEK

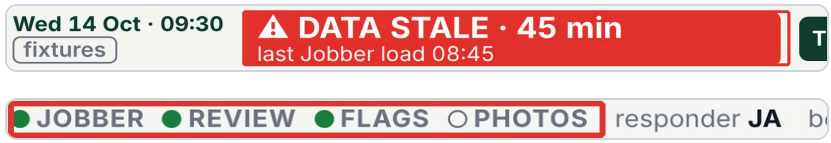

- ☐ **Monday 07:00**: each crew lead, 1-minute week forecast
- ☐ **Monday 07:15**: office scorecard (pathway 6)
- ☐ **Friday**: type Submitted / Accepted / Returned dates in the Review sheet
- ☐ **Friday**: clear the UNMATCHED rows (type the Job #)

EVERY MONTH

- ☐ Remove anything nobody looked at for 30 days
- ☐ PIN or crew changes: update the roster on the office PC
- ☐ Check **docs/jobber-assumptions.md** for open answers

Board looks wrong?

1. Red **DATA STALE** banner: is the office PC awake and online? The numbers are the last good ones.
2. Footer dots: **JOBBER** turns amber after 10 min without a load, red after 30.
3. Service stopped: **services.msc › SealTechBoard › Start**.
4. Tiny text, or a red **DPR** badge: restart the PC so the kiosk opens at scale 2.
5. Card shows no result all day: the visit has no Visit result form and no CLOSE line was written.
6. Job on the rail that shouldn't be: close or invoice it in Jobber; it leaves on the next refresh.
7. Verdict missing: the row is UNMATCHED; type the Job # in the sheet.
8. Still wrong: note the time and what you saw, then ask Claude in a session on this repository.

Freshness dots: JOBBER · REVIEW · FLAGS · PHOTOS. Hollow = not connected yet.

7 KEEP IT RUNNING

Change a decision first, then the code

OFFICE PC · GITHUB

HANDS OFF TO **OWNER**

WHERE THINGS ARE

Laptop trial	**npm run demo** → localhost:5173 · or the phone link
Office PC	Windows service **SealTechBoard** · Chrome kiosk at logon
Secrets	Only in **C:\SealTech\board\.env**. Never in chat, Notion or a sheet.
Practice PINs	**1234** for every TESTVILLE person; refused in live mode
Docs	**docs/**: decisions, huddle card, owner routine, kiosk setup

The code is on branch **claude/charming-lamport-g5jjc3**. Merge it to **main** before installing on the office PC.

TO CHANGE ANYTHING

1. Decide the change; add it to **docs/owner-decisions.md**.
2. Ask Claude in a session on **SealTech-Dashboard**, naming the decision.
3. Look at the new wall screenshots before it ships.
4. Office PC: **git pull · npm ci · npm run build**.
5. Restart the **SealTechBoard** service.

What comes next

IN THIS ORDER · EACH ONE UNLOCKS THE NEXT

NEXT	UNLOCKS	WHAT YOU DO
Jobber developer app	Live jobs on the wall instead of TESTVILLE	A Cowork session on the office PC follows **docs/jobber-app-handoff.md**
Google service account	Verdicts and flags land in the two sheets	Share both sheets with it; key file next to .env
Jobber note writes	ACK and crew recap reach Jobber; RECAP screen	Approve the app's note-write permission
Instant updates	Cards move within seconds, not a minute	Set up the Jobber webhooks
CompanyCam feed	Photo count and last capture on each card	Fix the CompanyCam time zone; add an API token

Two-week trial first: run the laptop at the 07:00 huddle, then mount the panel once the habit holds.

The first step is the Jobber app. Until it exists, the wall shows practice jobs only.
